

## Wells Product Price change October 22

From Oct 2022, with continuing strong ongoing rises in raw material prices and constantly increasing transportation costs, Wells has had to make a few amendments to try to counter our ever-rising outgoings.

To try to be as fair as possible to considerate customers, we will try to offset some of this year's rises with discounts.

For all orders over £500, which are confirmed by email giving at least 10 clear working days' notice to fulfil the order, and which have NO FURTHER AMMENDMENTS in that time, there will be a 10% discount as standard.

For orders under £250, there will be an additional charge of £25 to cover our out underlying costs.

This offer is not available in conjunction with any other discounts.
